KZN Flight Line

KZN Pattern Day July 28th 2013 Valley Model Club, Durban

Report by Neil Allen

This event had a last minute change of date, due to bad weather on the scheduled date. We thank Dave Charls for accommodating us at short notice. There was some clash of dates, so we did not have a big turnout. We had Des Cooper as our sole judge – thank you Des.

In Novice, Dave flew his petrol powered large scale plane. He was content with doing just one round, plus looking after our braai, and exercising his very happy dog (named Extra), chasing Mark's two German Shepherds. At time it looked more like a dogs outing than a flyers!

Gijs flew his electric 60 size plane, and it is nice to see his eyesight coping better. He gets a "mentioned in dispatches" for achieving a decent outside loop in this event, as previously his Stik spiraled out of these.

In Masters we had four flyers, from the usual gang. Johan is now getting a bit more used to the ex John Brink "Superman" plane. Arthur seems to have upped his game quite a lot, and did some good flying. The crosswind gave us some problems, but when it started gusting around 30 km/h, we reckoned that that was enough.

Next KZN event :-
League round on Sept 1st at Howick.
