Sportsman class had a good turnout of four flyers, with Craig Christianson getting the top score. We are pleased that he has now joined MAASA, and look forward to him flying in our Provincial event next month. Colin reminded us what a glow motor sounds like, to get respectable scores. Lance went astray in some manouvers, with help from my calling. Gijs again struggled with eye problems.

Masters class provided some good competition. We are delighted to welcome Michel who is giving pattern/precision aerobatics a go, and reports that this could become addictive! He has of course flown large scale aerobatics for many years, and is currently also flying full-size aerobatics. He did some practice flights last week on the P pattern, and got the odd manouvre wrong, but still ended up on top. We look forward to what he can do in future. Mark and I had a close battle, with John right behind. John of course is showing us that a 90 size model can do virtually everything a 2m ship can do (Grant and Clinton in Gauteng - are you with me here ?) Arthur had what I guess we can call a not so good day, when some things just did not work right, but he will get them fixed I am sure.

Jason flew a couple of rounds of P pattern just to keep his hand in, and they were good to watch.

We are grateful to the MMAC guys who let us have the use of the excellent field and facilities for the day.

We thank the judges wholeheartedly for their effort. Bruce Clarke, Des Cooper (welcome back in action), and Jason Barker.
