The days started off very over cast, a cold wind blowing off the sea giving all the pilots challenging conditions.

A great entry that included five guys from CRF, four new to the sport and Marc who joined the Masters guys.

In the Sportsman class, Jack managed a stunning second round ahead of Andre who is ever improving. CRF members looked good, Marc and Justin showed that they had what it takes to fly a Pattern line with very strong scores, in fact if they had been MAASA members, they would have finished

second and third. will we see you guys at Wild Clover 2 September?

Pieter Kapp was the clear winner in the Advanced class, although by making a simple mistake by Rory might have changed the outcome. Michael had decided that a warm bed and “day Nurse” was the better idea and left early. A very competitive class and a close battle for the SA Masters invitation between Michael, Rory and Charlie.

Masters class, this time without Gerhard, league 5 winner left Stuart, Rodney

and Ernie. CRF member Marc also enjoyed the two rounds and was clearly the highest scorer but its all about being MAASA members for the SA Masters qualification and the event positions.

It was a tight battle between Stuart, Ernie and Rodney and a zero score on round one put Stuart third. With all three now with the official SA Masters invitation, the pressure was off, not to say winning is not important.

Stuart was in a class of his own on the second round and the clear winner of the

class but only just ahead of Ernie and Rodney.

So that's the event at CRF, a big thanks to the three Judges, Martin, Kass and Bernus who sat out in the cold all morning, to the CRF members and committee who allowed us to hold this event.

Congratulations to all who qualified for the SA Masters and to thoughts who are so close you have one more league and the WP champs to achieve that final score.
